co-organize
**THE INTERINSTITUTIONAL POSTGRADUATE PROGRAM
(MSc):**

INTERNATIONAL
HELLENIC
UNIVERSITY

« BIOMEDICAL AND MOLECULAR SCIENCES - DIAGNOSIS AND TREATMENT OF HUMAN DISEASES »

GENERAL INFORMATIONS

The Department of Medicine, Democritus University of Thrace (DUTH), collaborated with the Department of Biomedical Sciences, International Hellenic University (IHU) coordinate every year the Interinstitutional Postgraduate Program (MSc) entitled:

«Biomedical and Molecular Sciences in Diagnosis and Treatment of Human Diseases»

The program absorbs up to fifty (50) students each year.

In our MSc are accepted graduates of the Departments of Medicine, Dentistry, Biomedical Science, Pharmacy, Biology, Agriculture, Chemistry, Physics and other Greek, European or other recognized foreign equivalent Institutions or Universities, as well as graduates of other Departments of a related subject.

The duration of this MSc is four (4) semesters [120 ECTS] and the lessons will take place either in the Dept of Medicine, DUTH in Alexandroupolis or in the Dept of Biomedical Sciences of IHU in Thessaloniki.

The timetable will be announced by time each year.

APPLICATION FORM

People who are interested should submit:

- Application form
- Copy of their degree and other qualifications
- Photocopy of their ID
- A recent picture of theirselves
