OF PGP «BIOMEDICAL AND MOLECULAR SCIENCES -
DIAGNOSIS AND TREATMENT OF HUMAN DISEASES»**

Alexandroupolis, July 2023

STATEMENT OF QUALITY POLICY OF PGP «BIOMEDICAL AND MOLECULAR SCIENCES - DIAGNOSIS AND TREATMENT OF HUMAN DISEASES

The Department of Medicine in collaboration with the Quality Assurance Unit (QAU) of the D.U.Th and the competent services of the Foundation has harmonized the Quality Policy of the Undergraduate Study Program (MODIP DUTH) and the offered of Master's and Doctoral programs with the Quality Policy of the Democritus University of Thrace

In particular, the Inter-Institutional Postgraduate Program (PGP) "BIOMEDICAL AND MOLECULAR SCIENCES - DIAGNOSIS AND TREATMENT OF HUMAN DISEASES" is part of the strategic planning of the DUTH, aimed at the further promotion of knowledge, the development of research and the arts, the satisfaction of the educational, research, social, cultural and development needs of the country, the high-level specialization of graduates in theoretical and applied areas of specific fields of knowledge, special thematic modules or individual branches of the academic subjects of the first study cycle of the relevant Department.

The Inter-Institutional Master's Program (PGP) "BIOMEDICAL AND MOLECULAR SCIENCES - DIAGNOSIS AND TREATMENT OF HUMAN DISEASES" is committed to the implementation of a quality policy that supports the academic character and orientation of the study program, promotes the purpose and its object, implements its strategic objectives, determines the means and ways of achieving them and aims at its continuous improvement.

The PGP «BIOMEDICAL AND MOLECULAR SCIENCES - DIAGNOSIS AND TREATMENT OF HUMAN DISEASES»:

plans, modifies and improves its Curriculum with transparency and participation of all stakeholders so that it:

- Respond to modern scientific requirements and teaching needs.
- To achieve the learning outcomes and qualifications as described in the Curriculum course outlines and to offer qualifications in accordance with the European Higher Education Qualifications Framework.
- To promote scientific knowledge and research on Biomedical and Molecular Sciences.
- To give graduate students a comprehensive view of the biomedical and molecular sciences in relation to their science and degree, work, workplace and their relationship to their physical and professional environment.

It applies in full alignment with the quality policy of the Department and the Institution quality procedures in the teaching work:

- Selecting the appropriate teachers in accordance with the provisions of the relevant legislation.
- Evaluating the teaching work of the students on a six-monthly basis.
- Participating in the internal evaluation process as coordinated by MO.DIP. of D.U.Th.
- Utilizing a variety of teaching methods and techniques, with an emphasis on student-centered processes and methods.
- Ensuring the progress and development of students during their studies.

Encouraging every student to write articles, publications in reputable medical journals and announcements at Panhellenic or International Conferences

- Ensuring useful and accessible learning resources for students
- Implementing the institution of the Academic Advisor.
- Participating in the procedures provided for in the Regulations of the Outstanding Teaching Award of the DUTH.
- Cultivating a climate of respect, cooperation, understanding and participation of all those involved in the Study Program and applying the best practices to resolve any problems that arise, as provided for in the Complaints and Objections Management Regulation.

It takes care of the quality (and quantity) of the research work of the members of the academic unit:

- Strengthening its extroversion with synergies both within the institution and with other institutions in Greece and abroad.
- Encouraging the participation of teachers in international and Greek conferences, research programs and international collaborations.
- Supporting their international mobility.
- Looking for alternative sources of funding (participation in programs, sponsorships, donations, etc.)
- Encouraging high quality research that will be published and recognized internationally
- Μεριμνά για τη σύνδεση της διδασκαλίας με την έρευνα.

It is updated on the level of vocational rehabilitation of its graduates and disseminates vocational rehabilitation information to students beyond the standard.

Based on its capabilities (teaching staff-logistical infrastructures), it ensures the appropriate annual number of admissions, so that it can offer high-quality education to students.

It takes care of the quality at all levels of operation of the Study Program and at the same time takes the appropriate actions for its improvement.

It has posted the Quality Assurance Policy of the Study Program on its website (Link: <https://msc-biomed.edu.gr/>) and communicates it in every way to all parties involved.

He takes care of the updating of the PGP website. so that it is a constantly valid source of information for students.
